## Walkie electric stacker

PSE10L-C/PSE15L-C is an economic walkie electric stacker with rated capacity from 1000kg to 1500kg and lifting height from 1600 to 3600mm, which can meet most customers' requirements for goods stacking. The long-tiller design makes the operator comfortable and safer during operation.

### ADVANTAGES:

- High efficiency and energy saving, long service time.
- High power pump, high lifting efficiency.
- Compact and light design, easy operation.
- High stability, conform with safety standards.
- Strong channel mast provides the stacker with better stability and longer life.
- New appearance design, unified appearance of multiple specifications.

**Long tiller design meets the requirements of ergonomics and safety**  
 Long-tiller design ensures the operators' high efficiency and a safe distance from stacker. Compared with the short-tiller stacker, a long-tiller stacker uses less operating force. Besides, the safety distance and good view makes stacking operation more efficient and faster.

**Maintenance-free lead-acid battery**  
 Use maintenance-free lead-acid battery with deep discharge protection.  
 (PSE10L-C 80Ah, PSE15L-C 100Ah)

**Stability casters**  
 Convenient stability casters adjustment, no need for lifting the stacker.

**Strong channel steel** provides the stacker with better stability and longer life.

**Backrest (optional)**  
 Optional high-quality backrest can make the goods more stable and safe when lifting the height.

**Multi-function meter**  
 The multi-function meter can display the vehicle working status, battery power and working time. Proven emergency buttons and electricity meters are more durable and reliable than other vehicles. The battery discharge indicator has a low-voltage automatic cut-off and lifting function to ensure a longer service life of the battery. PSE10L-C has a built-in 10A charger; PSE15L-C has a built-in 15A charger.
